Sexual Assault: Victimization Across the Life Span—A Clinical Guide and Color Atlas is an essential 2-volume set for anyone who may come into contact with someone who has been sexually assaulted. Professionals from the medical, legal, and law enforcement fields will find critical information on how to perform a physical examination, properly document examinations and investigations, collect forensic evidence (including DNA analysis), and address legal and prosecution issues.

Sexual Assault: Victimization Across the Life Span—Supplementary CD-ROM contains 130 photos with detailed case studies from field experts, all cultivated from our comprehensive Sexual Assault Color Atlas. This one-of-a-kind resource addresses a diverse field of victims, injuries, and circumstances. Presented in order by age group of the victim, from young children to elderly persons, the photos on this CD-ROM are intended to reflect the findings most characteristic of the various age groups, whether normal or pathologic.

Orders are billed for postage, handling, and state sales tax where appropriate. Prices subject to change without notice.
