*8 lessons with 22 AMA PRA Category 1 Credit(s) or Continuing Nursing Education Credit(s)*

***Child Sexual Abuse ISBN 978-1-878060-93-8. . . . . \$200.00***

When diagnosing children for and protecting them from sexual abuse, there is no room for error. As clinicians and other professionals work within this sometimes controversial and difficult context to ensure the safety of the children for whom they care, the need to remain well informed of the most current and evidence-based data is of paramount importance. With new information becoming available at such rapid rates, it can be a daunting task to stay up-to-date while managing the demanding schedule that comes standard with every medical degree.

STM Learning's forthcoming *Child Sexual Abuse: A Training Curriculum* offers a solution to this problem by allowing pediatricians and other medical professionals to keep on top of the latest data while earning continuing education credits through self-study in their leisure time. Built upon the academic foundation of *Medical Response to Child Sexual Abuse: A Resource for Clinicians and Other Professionals* and the original *Sexual Assault* volume and condensing the most relevant data into eight topical chapters meant to familiarize the recipients of the training with the common forms of child sexual abuse, this curriculum includes the most thorough clinical and forensic data presented in both a comprehensible text format and also a supplementary interactive CD-ROM, which includes tests, activities, images, teaching presentations, and case studies. This curriculum is intended to provide necessary information for equipping clinicians, nurses, and others with the necessary tools to navigate the vexing territory of child sexual abuse.

The information in *Child Sexual Abuse: A Training Curriculum* is designed to be studied either as a whole or on a chapter-to-chapter basis. The package price includes an initial certification through Saint Louis University; additional certificates are available for a reasonable fee of \$30.00 for nurses and \$45.00 for physicians. It is both the quintessential resource for any physician or nurse serving in a teaching or advisory capacity and an exemplary guide for every professional working within the context of child sexual abuse who wishes to continue his or her education.

**SAINT LOUIS UNIVERSITY**

This curriculum's activities have been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education through the joint sponsorship of Saint Louis University School of Medicine, Saint Louis University School of Nursing, and STM Learning, Inc.
