Total for in print library†.	\$1554.00

The *G.W. Medical Library* is currently comprised by five titles that discuss in detail the medical, legal, social science, and law enforcement perspectives of child maltreatment and domestic violence. The contents of these volumes represent the latest research in the child protection field. They will give professionals in a range of disciplines the ability to use a common language when discussing cases of child abuse, as well as the skills they need to tackle child abuse within their own discipline.

The entire library is encyclopedic in scope as each book covers comprehensively one realm within the larger topics of child maltreatment and domestic violence, with little overlap of information. The library has chapters written by and for medical, legal, social service, and law enforcement child advocates who routinely encounter cases of child abuse. For information on the contents of the individual titles, please visit the individual product pages at www.gwmedical.com or see the catalog. By purchasing the *G.W. Medical Library* you are taking a step toward an informed and concerted effort to eliminate child maltreatment.

Forthcoming additions to the G.W. Medical Library include:

- Intimate Partner Violence
- Investigation of Child Maltreatment
- Missing, Abducted, and After
- Mental Health Issues of Child Maltreatment

* all products include CD-ROM
 † If you have purchased other titles and would like to have a complete G.W. Medical Library, please see the catalog or visit G.W. Medical Publishing's website to view the products separately.

Orders are billed for postage, handling, and state sales tax where appropriate. Prices subject to change without notice.
